PROJECTS

PROJECTS – REQUEST PARTS FROM STORE

A part request must be logged from the project in order for stores to issue the stock required.

Depending on your company's configuration, you may need to authorise the part request before the stock can be issued.

Ribbon Access: Maintenance/ Projects > Projects

The **Project Listing** screen will be displayed.

- Select the **site**.
 - In this image, **Durban** has been selected.

The screenshot shows the 'Project Listing' interface for 'BPO: Version 2.1.0.38 - Example Company'. The top navigation bar includes tabs for Home, Equipment and Locations, Contract, Finance and HR, Inventory, Maintenance and Projects, Manufacturing, Procurement, Sales, Service, Reporting, and Utilities. A toolbar contains various actions like Add, Edit, Save Layout, Workspaces, Save Filter, Apply Project Methodology, Adjust Project Baseline, Close Project, Employee Time, Project Time, Progress Report, Print Delivery Note, Export, My Projects, Refresh, and Reports. A dropdown menu for site selection is open, showing 'Durban' as the selected option. Below the toolbar, there are 'Links' and 'Listings' tabs. A search bar is present with the text 'Enter text to search...'. On the left, a 'Functions' sidebar lists categories like Work Orders, Work In Progress, Documents, Notes, Assignment History, Progress Chart, and Baseline. The main area displays a table of project listings with columns for ProjectRef, Description, Status, StatusDesc, StartDate, EndDate, CustomerName, CustomerCode, and ManagerName. The table contains 20 rows of project data.

REQUEST FROM BILL OF MATERIAL

- The **Part Requests** screen will be displayed.

With the **(BOM)** selection:

When you search for the part number, the system will only bring up a list of parts that belong to this machine. For this process, a Part List BOM must be set up. View [Bill of Materials](#) for more details.

- Click on the **BOM** radio button.
- **Work Order:** This will be auto populated with the number of the Work Order you initially selected.
- **Part:** Click on the search button and select the part required.
 - **Note:** Only the parts connected to the BOM will be listed for selection.
- **Description:** This will auto populate when the part has been selected.
- **Quantity:** Type in the quantity required.
- **Warehouse:** Click on the search button and select the warehouse.
- **Required Date:** Set the date required.
- **Assigned To:** Click on the search button and search for the person who should be assigned to this request.
- **Requested By:** Click on the search button and search for the person responsible for the part request.
- **Comments:** Type in any comments required.
- **Billable:** Select this option if the part is billable.

- This will be set to billable by default, unless the part is linked to the contract as an inclusion.
- Only stock items can be marked as billable, asset and loan requests will not be billable.
- **Under Warranty:** Click on this checkbox in order to note whether the item replaced is under warranty. This does not process the item as a warranty claim part. View [Warranty Claims](#) for more information.
