

We are currently updating our site; thank you for your patience.

COMPANY

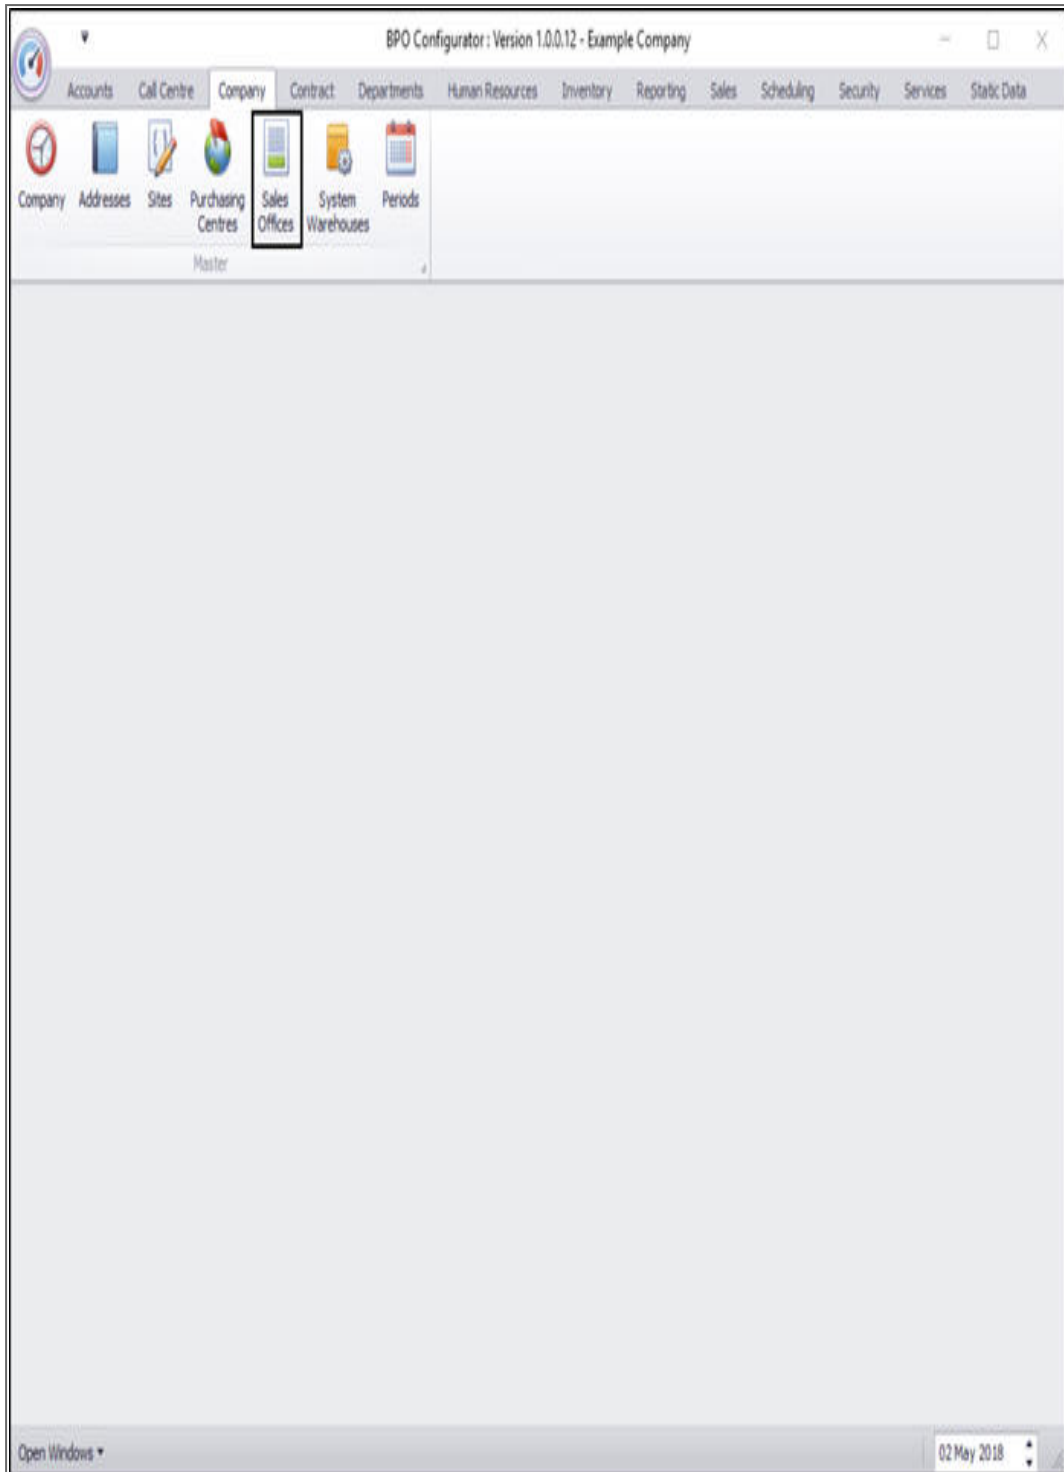

SALES OFFICES – ADD A SALES OFFICE

The Sales Office holds configuration and numbering conventions for sales transactions.

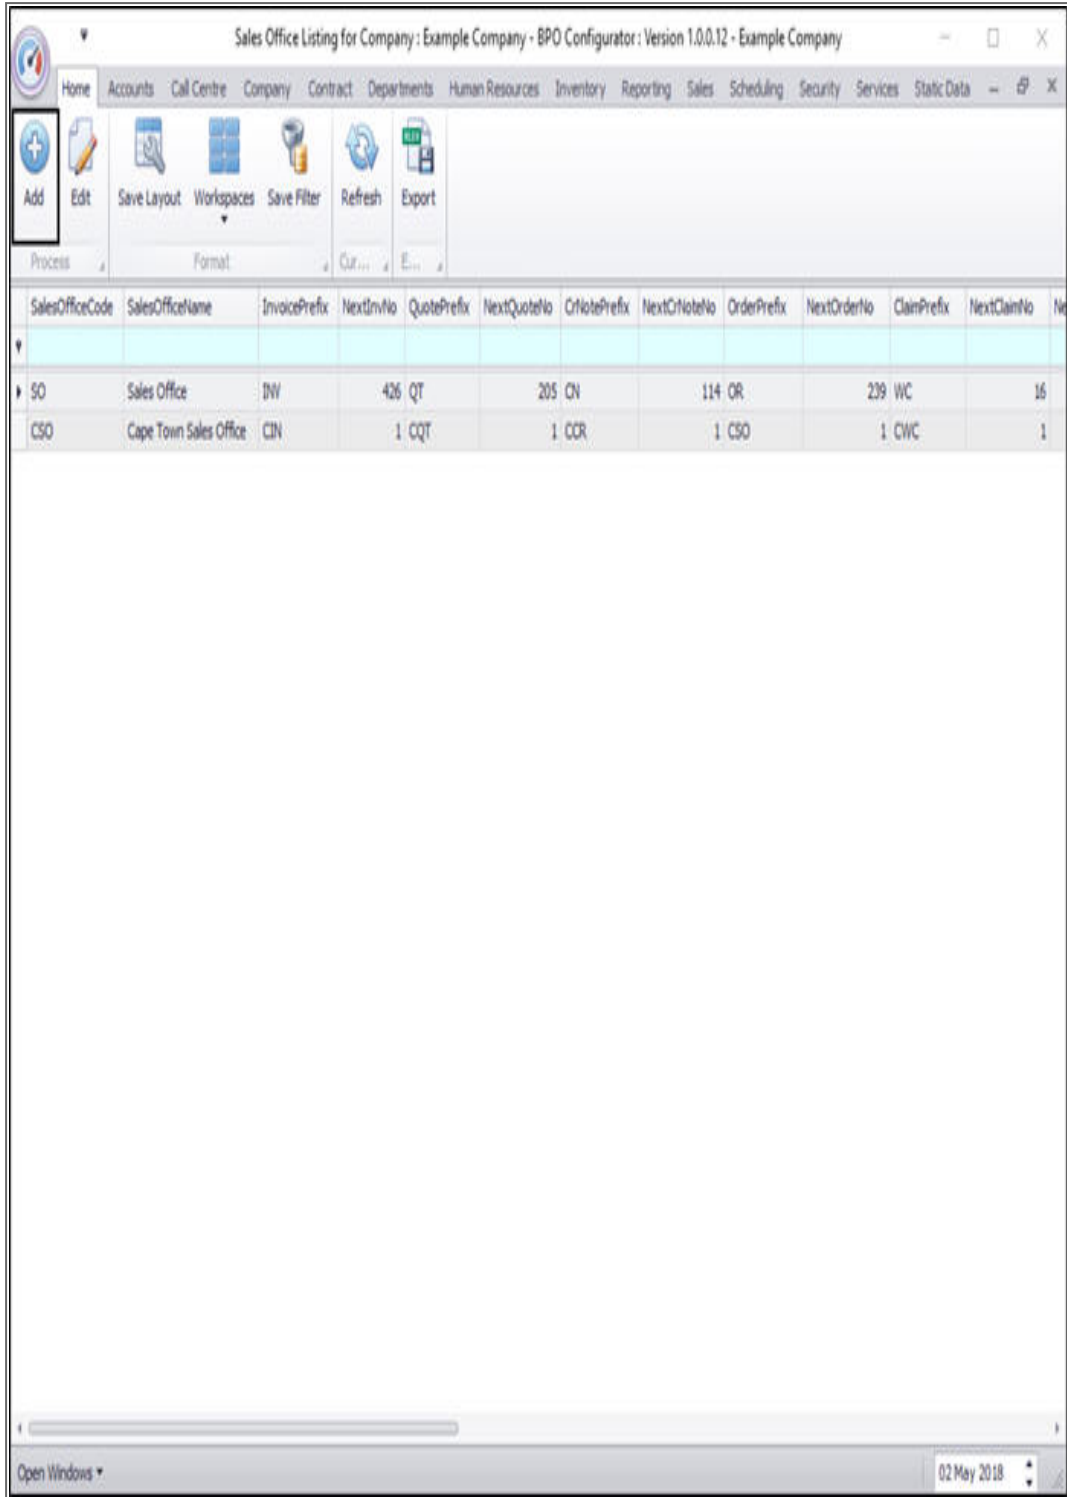

The Sales Office can be set up in two ways:

- One **global** sales office, linked to all branches, document prefix and numbering is globally sequential.
- One sales office **per branch**, each site will have its own prefix and numbering.

Ribbon Access: Configurator > Company > Sales Offices

- The **Sales Office Listing for Company: []** screen will be displayed.
- Click on **Add**.

- The **Add New Sales Office** screen will be displayed.

SALES OFFICE CONFIGURATION DETAILS FRAME

- **Code:** Type in the code you wish to use for this new sales office.
- **Sales Office Name:** Type in the description for this new sales office.
- **Manager:** The site needs to be selected before you can search for the sales office manager. We will add this at the end.

SALES FRAME

- **Invoice Header:** This will be the **default** heading to be included on all sales invoices.
- **Quote Validity** This will be the number of days the quote is valid, this figure pulls through to quote covering letter.
- **Include Quote Cover Page:** Click on this check box if you want to use BPO's standard quote cover letter.
- **Default Cash Sales Account:** Click on the **search** button and select from the **Select the Cash Sales Account** pop up screen the default cash sales account if applicable.

Cash Sales Account

Identification of a customer as a 'cash sales account' is used for the "**Invoice Header**" on page 2 process and the "**POS Lite - Add Point of Sale (POS) Invoice**" on page 1 process.
