CONTRACT

CONTRACT CREDIT NOTES WITHOUT RE-INVOICE

This process will <u>not</u> generate a contract invoice once the credit note has gone through approval.

Ribbon Access: Contract > Contract Credit Notes

- 1. The Contract Credit Notes screen will be displayed.
- 2. Click on the drop-down **arrow** in the **Site** field and select from the list, the Site in which you wish to work.
 - In this example, **Durban** is selected.

- This screen will open by default with the Status set to New. This does not need to be changed, in order to add a Contract Credit Note.
- 2. Once the **Site** is selected, as explained above, the screen will populate with all of the **New** Contract Credit Notes linked to that specific Site.

ADD CONTRACT CREDIT NOTE

3. Click on Add.

1. The Add new Contract Credit Note screen will be displayed.

SEARCH BY CUSTOMER / SEARCH BY INVOICE NUMBER

There are **2** methods for bringing up the customer and invoice details:

- i. **Either**, You can search for and select the customer first and then search and select the correct invoice number linked to that customer.
- ii. **Or**, you can search for and select the invoice number first, which will auto populate the customer details.

For the purpose of this manual, we will document the first process.

CUSTOMER DETAILS

2. Customer Name: Click on the search button in this field.

1. The selected reason will populate the **Reference No.** field.

NEW CLOSING READING

- If there are any meters linked to the selected invoice to be credited, then you can manually edit the closing reading. You may wish to do this if, for example, the closing reading on the original invoice was recorded incorrectly
- 3. Click in the **New Closing Reading** field of the meter type that you wish to edit. Directional arrows will appear. Either type in, or use these arrows to select the correct current machine meter reading.

Suppress on Invoice Check Box

- 4. You can click on the **Suppress On Invoice** check box at the end of any selected meter fee line.
 - This will **hide** the meter fee line amount on the contract invoice although the **total** contract invoice amount will include this.

COPY CURRENT CLOSING BUTTON

- 1. If the closing readings on the original invoice were recorded correctly,
- 2. You can click on the **Copy Current Closing** button.
- 3. This will cause the **New Closing Reading** fields to populate with the same figures as the **Closing Reading** fields.
 - Note: This is useful, for example, if there are several lines of meter readings linked to the invoice and only one needs to be

changed for the purpose of the credit note being created. The system will populate **all** the meter rows then you can search and edit manually, the one reading that was captured incorrectly.

DELETE AN ITEM LINE

You can **delete** an item line on the credit note;

- 4. Select the **row** of the **item** that you **wish** to delete.
- 5. Click on **Delete Item**.

CLOSE READINGS WARNING

- 1. If you haven't already done so, then a **BPO** message box will pop up informing you that;
 - The meter readings must be closed off either by forcing them to close or by generating a new invoice.
- 2. Click on Ok.
