CALL ADMINISTRATION - START WORK OR END WORK

The Call Administration screen is part of the Extended Call Centre - Version Compatibility 1

You can begin the **Start Work** process from the <u>Call Listing</u> screen in BPO. From here you can **Start** and **End** work on the Calls you are working on.

You or the Call Centre, can start work on behalf of a Technician, but the Technician will need to end work for themselves.

A Call must be in the <u>New</u> status to enable **Start Work**. It will then move to the <u>In Progress</u> status where you can continue the process until End Work.

If a technician is using Tech Connect, then he can Start Work on the Call from his device.
