INVENTORY

RAISE A REVALUATION REQUEST

Stock revaluation enables you to adjust the cost of stock items to reflect a changes in the standard cost of an item without changing the stock quantity.

These changes in value may be due to many different factors including, for example:

- Changes in procurement
- Changes in manufacturing
- Exchange rate movements

A Revaluation Request could also be auto created by the [Receiving Goods with Landed Cost Revaluation](#) process.

Ribbon Access: Inventory > Revaluations

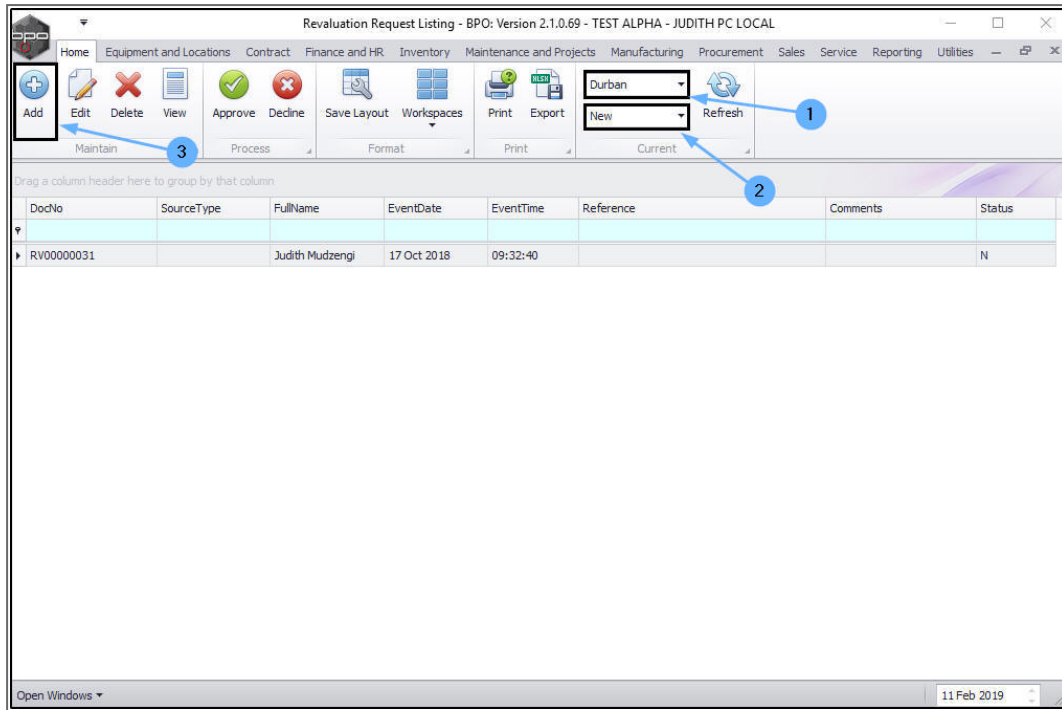

The **Revaluation Request Listing** screen will be displayed.

1. Select the **Site**.
 - In this image, **Durban** has been selected.
2. Select the **Status**.
 - In this image, **New** has been selected.

Note: You can add a stock revaluation request in any status but for you to view the newly created stock revaluation request, you have to be in status **New**.

CREATE/ADD REVALUATION REQUEST

3. Click on **Add**.

The **Add a new revaluation request** screen will be displayed.

REVALUATION REQUEST DETAILS AND COMMENTS

- **Reference:** Type in the reference for this revaluation.
- **Requestor:** This will auto populate with the name of the user currently logged on to the system. You can click on the drop-down arrow and select from the list an alternative requestor, if required.
- **Contra Account:**¹ This is the revaluation suspense general ledger account code which will auto populate based on what has been set up in the **company configuration**.

¹The revaluation suspense account used to contra the stock account for the underlying financial transactions posted by the REVI and REVD drivers.

- **Request Date and Time:** This will auto populate with the current date and time.
 - **Date:** You can either type in or click on the drop-down arrow and use the calendar function to select an alternative date, if required.
 - **Time:** You can either type in or use the directional arrows to select an alternative time, if required.
- **Comments:** Type in a comment relating to this revaluation.

REVALUATION REQUEST PARTS/ITEMS DETAILS

ADD A NEW ITEM-METHOD 1

- In the Parts data grid, click on the blank text box beneath the **Part Code** column header (not the **filter row**).

1. An **ellipsis** button will appear, click on this button.
2. The **Select a part** screen will be displayed.
3. Click on the row selector in front of the **part code** that you wish to revalue.
4. Click on **Ok**.

PartCode	PartDesc	WarehouseName	BinLocationName	BatchSerialNo	UnitCost	QtySOH	NewUnitCost	BalanceOrUsefulLife	LineCost	NewLineCost	CostDifference	ContraAccCode
1212	ABPart	Main Warehouse	DEIN-C1		250.00	1.00	0.00	0	250.00	0.00	250.00	9998

Total: 250.00

ADD A NEW ITEM-METHOD 2

- In the Parts data grid, **right click** anywhere in a **blank row** (not the **filter row**).

1. A **Process** pop up menu will be displayed.
2. Click on **Add** - Add Item.

1. A **Select a part** screen will pop up.
2. Click on the **row selector** in front of the part you wish to revalue.
3. Click on **OK**.

The screenshot shows the 'Add a new revaluation request' form. The 'Request Date' is set to 27 Feb 2019. A 'Select a part' dialog box is open, displaying a list of parts. The 'Ok' button in the dialog is highlighted with a blue circle and the number 3. A blue circle with the number 2 points to the dialog box, and a blue circle with the number 1 points to the 'Request Date' field.

PartCode	PartDesc	Rate	PartType	Status	TaxType	CatDescr
DR-02	Drum C component 2	15.00	C	A	VAT	Access
SP6161	SP6161 Sprint Copier	15.00	A	A	VAT	Hardw
16-856	Drum for SP 1616	15.00	B	A	VAT	Spare
1616-147K	Black toner SP 1616	15.00	C	A	VAT	Toners
AT500	AT500 Copier	15.00	A	A	VAT	Hardw
1212	ABPart	15.00	C	A	VAT	Spare
1111	Cyan Toner	15.00	C	A	VAT	Toners
A4ADB01	A4 Architects Drawing Book	15.00	C	A	VAT	Access

- The **Parts** data grid will populate with the selected **part details**.

The screenshot shows the 'Add a new revaluation request' form with the 'Parts' data grid populated. The 'Request Date' is now 28 Feb 2019. The data grid shows the following details for part 1212:

PartCode	PartDesc	WarehouseName	BinLocationName	BatchSerialNo	UnitCost	QtySOH	NewUnitCost	BalanceORUsefulLife	LineCost	NewLineCost	CostDifference	ContraAccCode
1212	ABPart	Main Warehouse	DBN-C1		250.00	1.00	0.00	0	250.00	0.00	250.00	9998

ADD A C-CLASS PART NOT LINKED TO BATCH TRACKING

1. In both of these method, the C-Class part that was selected did not have **Batch Tracking** linked. The **Batch Serial No** field in the **Parts** data grid will therefore be **blank** .

- **Part Desc:** This will populate with the selected part code.
- **Part Desc:** This will populate with the part description.
- **Warehouse Name:** This will populate with the default stock warehouse name. This can be changed as explained further in this manual.
- **Bin Location Name:** This will populate with the default stock bin. This can be changed as explained further in this manual.
- **Batch Serial No:** This will be blank as this part is not linked to **batch tracking**.
- **Unit Cost:** This will populate with the average unit cost of the part as currently set on the system.
- **Qty SOH:** This will populate with the quantity stock on hand of this part as recorded on the system.
- **New Unit Cost:** You will either type in or use directional arrows to select the new unit cost (according to the revaluation) in this field.
- **Balance of Useful Life:** As this is a C-Class part - this field is not relevant and should be left as 0.
 - (If this was an A or B-Class part - you would type in the remaining useful life of the item in months. This will be used in

asset depreciation calculations when the item is **converted to an asset**. If asset depreciation is not used leave as 0.

- **Line Cost:** This will populate with the Unit Cost of the selected part multiplied by the Qty Stock on Hand.
 - **New Line Cost:** This will populate with the New Unit Cost of the selected part multiplied by the Qty Stock on Hand and will auto populate once the New Unit Cost has been typed in.
 - **Cost Difference:** The system will calculate the sum of the Unit Cost minus the New Unit Cost and populate this field accordingly.
 - **Contra Account Code:** This will populate with the general ledger account code set up in the **company configuration**.
2. The Total field displays the total difference between the existing cost and the new cost.

Total											250.00	

Open Windows | 25 Feb 2019

1. Once the **New Unit Cost** has been entered, the system will calculate
2. the **New Line Cost** and the
3. **Cost Difference**, which will affect the
4. **Total** amount.

ADD A C-CLASS PART LINKED TO BATCH TRACKING

Use either **Method 1** or **Method 2** above to select a C-Class part.

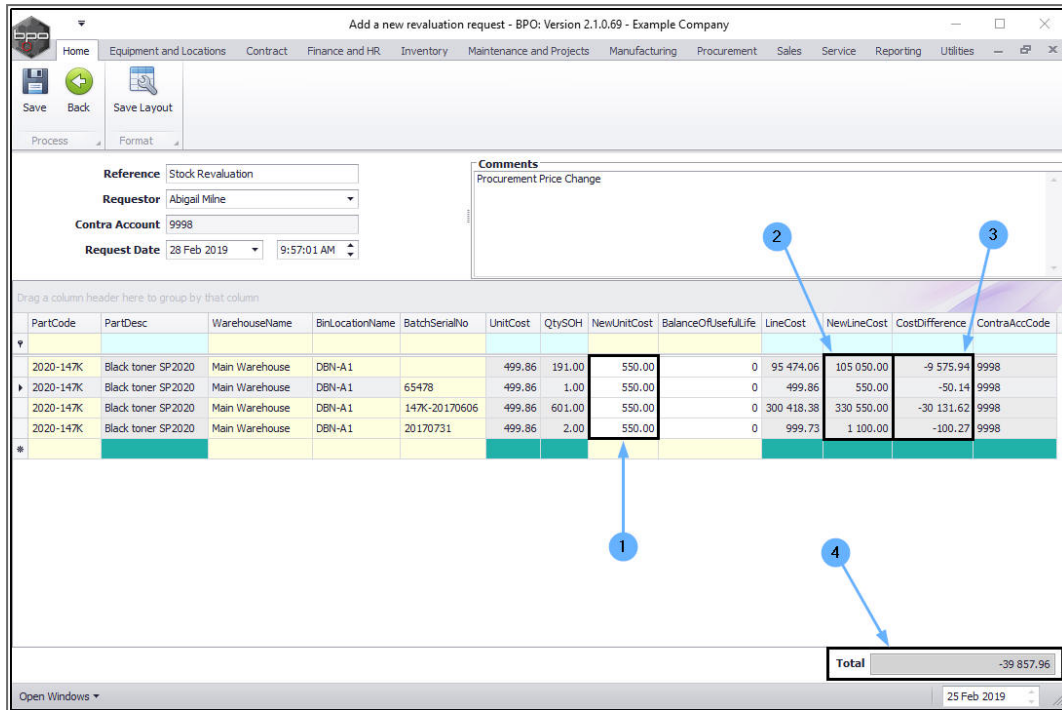

1. The **Parts** data grid will populate with the selected **part code** .
2. All the selected part **batches** in the stock warehouse will be listed, each batch will be on a **separate** line.
3. You will only need to type in a **New Unit Cost** for one batch, as you type in the new cost, the system will auto populate the remaining batches with the same amount.
4. The Total field will display...

PartCode	PartDesc	WarehouseName	BinLocationName	BatchSerialNo	UnitCost	QtySOH	NewUnitCost	BalanceOfUsefulLife	LineCost	NewLineCost	CostDifference	ContraAccCode
2020-147K	Black toner SP2020	Main Warehouse	DBN-A1		499.86	191.00	0.00	0	95 474.06	0.00	95 474.06	9998
2020-147K	Black toner SP2020	Main Warehouse	DBN-A1	65478	499.86	1.00	0.00	0	499.86	0.00	499.86	9998
2020-147K	Black toner SP2020	Main Warehouse	DBN-A1	147K-20170605	499.86	601.00	0.00	0	300 418.38	0.00	300 418.38	9998
2020-147K	Black toner SP2020	Main Warehouse	DBN-A1	20170731	499.86	2.00	0.00	0	999.73	0.00	999.73	9998
Total											397 392.04	

1. Once the **New Unit Cost(s)** has been entered, the system will calculate
2. the **New Line Cost** for each batch line and the
3. **Cost Difference** for each batch line, which will affect the
4. **Total** amount.

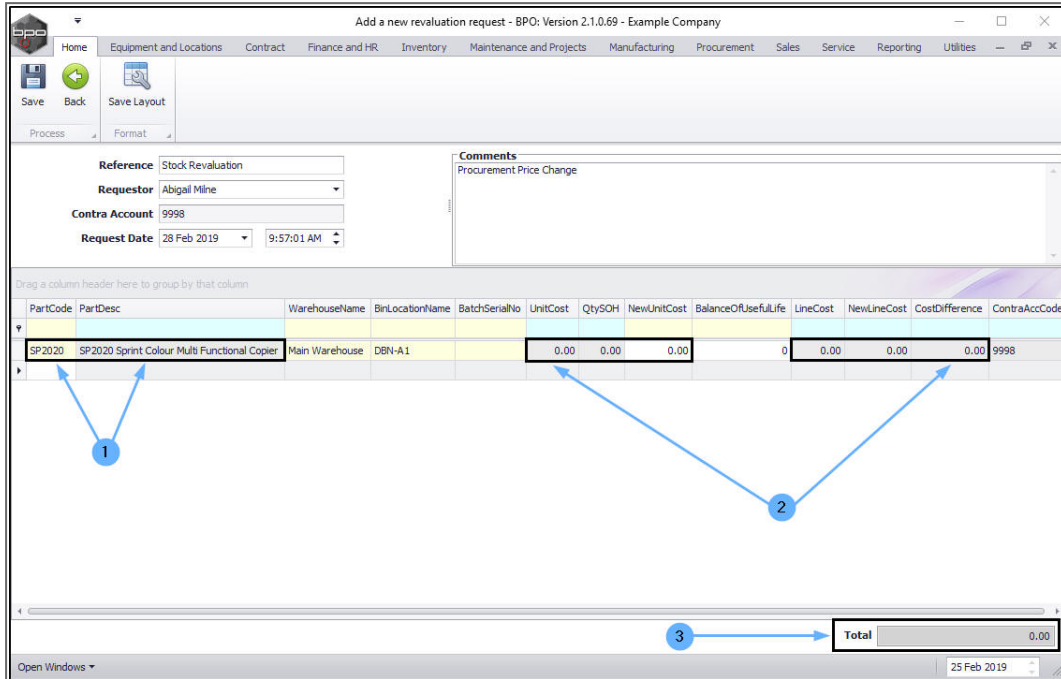

ADD AN A OR B-CLASS PART/ITEM

Use either **Method 1** or **Method 2** above to select an A or B-Class part.

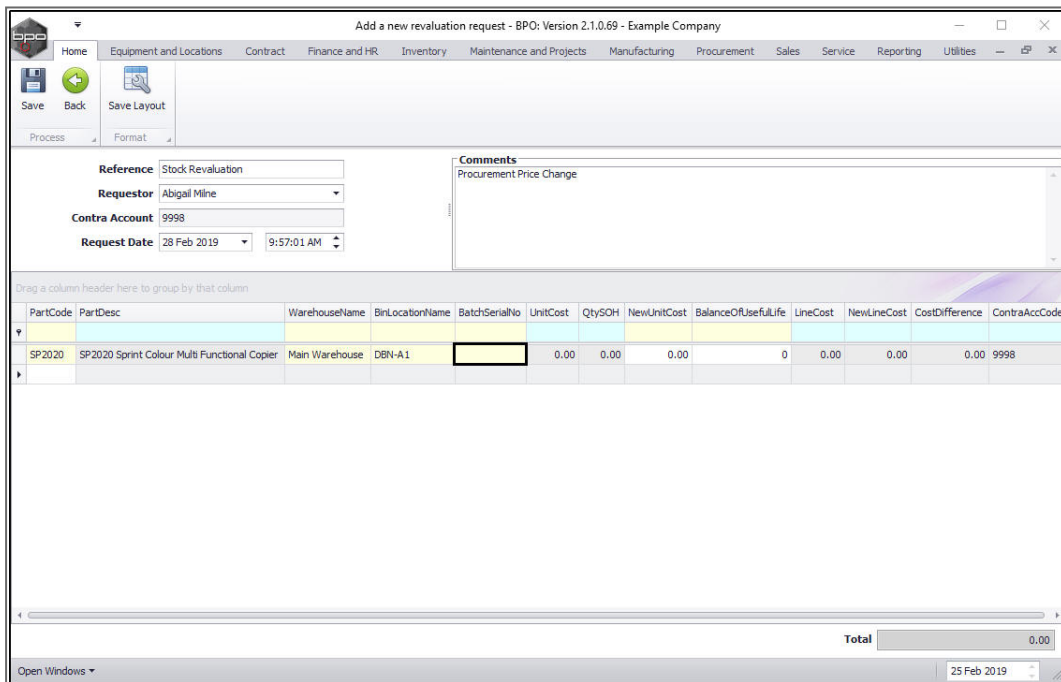

1. The **Part Code** and **Part Description** fields will populate with the selected part.
2. However, unlike with C-Class parts/items, the:
 - **Unit Cost**
 - **Qty SOH**
 - **New Unit Cost**
 - **Line Cost**
 - **New Line Cost**
 - **Cost Difference**

fields will not be populated, as with an A or B-Class part/item you need to select a **Serial No.** first.

3. With no figures in the Parts data grid, the **Total** field will be populated with nil.

- Click in the **Batch Serial No** field.

1. An **ellipsis** button will be revealed, click on this button.
2. A **Select a batch//serial no. or this request** screen will pop up.
3. Click on the **row selector** in front of the A or B-Class serial no. that you wish to revalue.
4. Click on **OK**.

- **Batch Serial No:** This will be populate with the selected part serial number.
- **Unit Cost:** This will auto populate with the actual value of the selected item.
- **Qty SOH:** This will always populate with **1** for A or B-Class items because each serial number is **unique**.
- **Line Cost:** This will auto populate with the same value as the **Unit Cost** as only **1** A or B-Class item can be listed **per line**.

- **Cost Difference:** The system will calculate the sum of the Unit Cost minus the New Unit Cost and populate this field accordingly.

CHANGE THE WAREHOUSE

The **Warehouse Name** and **Bin Name** fields auto populate as a part/item is selected with the **default stock warehouse** and **bin** as set up on the system. You may want to **change** the warehouse and/or bin for a part/item if, for example, the **incorrect** warehouse was either auto populated or selected at the start of the process.

For this process, the warehouse of the **A Class part/item** selected above will be changed.

- Click in the **Warehouse Name** text box.
