## SELL OFF REQUESTS - EDIT

For expired contracts that remain active, you have the ability to sell off serial numbers that have been selected, if the selected items are internal assets.

You can edit certain Sell Off Request details before Approval.

**Screen access:**

**Ribbon** Select *Contract* > *Sell Off Requests*

The **Sell Off Requests** screen will be displayed.

### Select the Site

Your employee user record should be linked to a default site. In this case, the site will auto populate with this default, otherwise the site must be manually selected.

Another site can be selected, if required, and if you have the security rights to access the site.

If **All Sites** displays here, then you do not have a default site configured on your user record, and need to select the required site.

Upon opening, this screen will default to the **New** status, listing all Buy Back Requests that still require processing.

**Status filter options:**

**New:** Sell Off Requests that still require processing

**Approved:** Sell Off Requests that have been Approved

**Declined:** Sell Off Requests that have been Declined

## EDIT SELL OFF REQUEST

- Select the **row** of the **sell off request** that you wish to process.

- Click on the **Edit** button.

The status bar at the bottom shows 'User : BiancaD | 31/10/2022 | Version : 2.5.0.14 | Example Company'.

## REMOVE ASSETS

You can also remove an item, if there are multiple lines and one or more lines should not have been included in the Sell Off. Ensure you have at least one item on the request. If none of these items should be sold off, then Decline the Sell Off Request.

- Select the asset that must be removed.
- Right click and select Delete Item from the context menu.

## SAVE SELL OFF REQUEST

Once you have made all required changes:

- Click on the **Save** button.

The **Sell Off Request Processing** message box will come up noting: **Sell Off Request No [sell off request number] saved successfully.**

- Click on the **Ok** button.

You will return to the Sell Off Request listing.
