

PROCUREMENT

EXPEDITING

In this process you can update the **Expected** delivery date – **per item** on a purchase order. No configuration is required for this option.

You will need to be able to view the list of **open** purchase order items, with their **Expected** delivery date.

Note: The **Expected** delivery date is initially set on the purchase order, based on the **date** the purchase order was created, plus the **lead time** (in days) as set on the [Inventory Definition Supplier Link](#).

Ribbon Access: *Procurement > Expediting*

The **Order Expediting** screen will be displayed.

Select the Site

1. Ensure that you select the **site** that contains the relevant purchase order.

PURCHASE ORDER

2. Select the **row** of the **purchase order item** that you wish to expedite.

Note: There can be **more than one** item linked to a purchase order - ensure that you have selected the correct item.

3. Click in the **Expected** date field of the selected purchase order.

CONFIRM DELIVERY DATE CHANGE

- An **Input Validation** message box will pop up asking:
 - Are you sure you want to change the expected delivery date for [] on order - []?*
- You will note that although there are **3** items linked to this purchase order, only the item that has been selected will have it's delivery date changed.
- Click on **Yes**.
