

SERVICE

CALLS - COMPLETE A CALL

Note that there are changes to the Call Centre screens due to the Call Centre Performance Enhancements rolled out in part of the Extended Call Centre - Version Compatibility¹. The functionality that is available to you may differ depending on the Call Centre mode configured and your user rights. For more information related to this, refer to the [Call Centre Mode](#) notes.

Once a technician has completed the work required, the call can be **Completed**.

The Call Centre can manually place a call in the **Complete** status.

Using **Tech Connect**, the technician will select **End Work** on his device, and then **Resolution Action** as **Resolved (Client)**. The call will move to the **Complete** status.

Updates, invoicing, etc., can still be logged against a call in the Completed Status. The call can be **closed** once all the admin related to the call has been completed.

Ribbon Select **Service > Calls**

- The **Call Listing** screen will be displayed.
